Ben-New Base Code - from Benjamin-Newton United  
[www.benjamin-newton.com](http://www.benjamin-newton.com)  
by Ben Huot

## License

- This entire PDF and website HTML and CSS code for Ben-New Base Code is licensed under a Creative Commons Attribution 3.0 United States License. Change all you want and distribute it freely in any format, but just give me credit for it (after removing the content text).
- Commercial, government, educational, non-profit, personal, or any other purpose or context is totally free (except you need to give me credit)

## Overview

- with NO 3rd party dependencies, images, or Javascript
- but you can add what you like
- aimed at “old school” websites like mine that are there to present information only (NO 3rd party content support included)
- designed just to give information like books without any support for Ads
- works on watches to widescreens
- ultra lightweight, accessible, and aimed at slow connections
- based on what I learned of HTML5 and CSS3 from 2009-2019
- The previous approximately 10 years I did the best I could with what we had at the time

## Instructions

- This code is the best from my website design set up so you can either leave it as it is, or modify the design code to suit your needs, and it should work for you
- Be sure to remove the sample content text, including the ones for the header and footer, which are not always visible
- Put the entire folder and its contents on your website - it is meant to be self contained and portable
- The only third party technology that this website framework needs is a web server set up for server side includes - this should work out of the box with Apache, Nginx, or any other major web server online or offline
- You could probably set it up to be fully flat files by having a static site generator or some sort of Javascript contraption but you would have to set that up or build that yourself

## Best Long Term Decisions

What I Learned about websites by: updating one with content and design changes and learning about new technologies and techniques (daily for over 20 Years)

### Major Priorities

- Security as number 1 priority
- Speed a major priority
- Maintainability a major priority
- Accessibility a major priority
- Learning about latest techniques a major priority

### Usability

- Large font size
- High contrast between text and background colors
- Easy to see font at small sizes
- Making special effects optional
- Night mode, dark mode, increase text size

### Marketing

Ben-New Base Code - from Benjamin-Newton United  
[www.benjamin-newton.com](http://www.benjamin-newton.com)  
by Ben Huot

- No advertisements
- Name my website after myself
- Consolidate websites to one domain
- Be in as few online communities and social media as possible

### File Formats

- Use only open formats whenever possible
- Keep creations in as few a formats as possible
- As few graphics as possible
- Every graphic completely vector based if possible
- Put books in e-book specific formats and not in webpage format

### Organizational Related

- Separate out headers and footers to pages so they can be updated in one place
- Numbering systems on page for sections, headings, lists, paragraphs, and links
- Hide and show basic information on every page for the website
- Separate out large files like graphics and audio from small files like CSS and HTML into separate sections
- Reuse the most of my code possible in designs

Ben-New Base Code - from Benjamin-Newton United  
[www.benjamin-newton.com](http://www.benjamin-newton.com)  
by Ben Huot

- Check pages most likely to have layout breaks after design changes

#### Design Related

- Put self portrait on website
- Explain my website design ideas
- Summarized what I learned over the last 20 years
- Machine translated most important writings

#### Code Related

- No CMS like Wordpress
- No Javascript
- Least third party code possible
- Depend upon a as few programs as possible
- Use as few a layers of abstractions as possible

Ben-New Base Code - from Benjamin-Newton United  
[www.benjamin-newton.com](http://www.benjamin-newton.com)  
by Ben Huot

<blockquote>

"By faith Abraham, when he was called to go out into a place which he should after receive for an inheritance, obeyed; and he went out, not knowing whither he went. By faith he sojourned in the land of promise, as in a strange country, dwelling in tabernacles with Isaac and Jacob, the heirs with him of the same promise: For he looked for a city which hath foundations, whose builder and maker is God. Through faith also Sara herself received strength to conceive seed, and was delivered of a child when she was past age, because she judged him faithful who had promised. Therefore sprang there even of one, and him as good as dead, so many as the stars of the sky in multitude, and as the sand which is by the sea shore innumerable. These all died in faith, not having received the promises, but having seen them afar off, and were persuaded of them, and embraced them, and confessed that they were strangers and pilgrims on the earth. For they that say such things declare plainly that they seek a country. And truly, if they had been mindful of that country from whence they came out, they might have had opportunity to have returned. But now they desire a better country, that is, an heavenly: wherefore God is not ashamed to be called their God: for he hath prepared for them a city."

</blockquote>

--Hebrews 11:8-16
