# Why I don't sell my books

My books are worth more to me than their market value  
If I got them published I would lose all rights to them  
So I wouldn't be able to give them away for free  
I don't agree with much of the media on both sides or how people build websites  
I have little control over anything  
I want to make the things I have control over the best they can be  
I want to provide something of value in my lifetime  
I want to express my feelings and I want to make the world better  
I don't work well with charities because they won't let me do any meaningful work  
Freeing things helps them spread better

# Why Not Try to Persuade Others To Follow Your Ideas?

Be a record that not all agreed to where society was going  
To speak what other people do not have the words to say but feel the same as me

There are usually more than one way to do things and I do not have all the answers

To keep people thinking and asking questions so others will not adopt half my ideas and then claim they follow me

The only essential things are

That the Creator God must be worshipped

There is only One God who offers eternal life

I want it to be easier to understand this by believers and non-believers alike while living in a culture that is fundamentally atheist.

## Why Not Try to Persuade Others To Follow Your Ideas?

- 1) Be a record that not all agreed to where society was going
- 2) To speak what other people do not have the words to say but feel the same as me
- 3) There are usually more than one way to do things and I do not have all the answers
- 4) To keep people thinking and asking questions so others will not adopt half my ideas and then claim they follow me

The only essential things are

- 1) That the Creator God must be worshipped
- 2) There is only One God who offers eternal life

I want it to be easier to understand this by believers and non-believers alike while living in a culture that is fundamentally atheist

# Society Collapse

Society is breaking down globally  
It is controlled and planned  
It is happening slowly  
This is to our advantage  
This is to their advantage  
Let this happen peacefully  
Alternatives are worse for everyone

# Society Collapse

- Society is breaking down globally
- It is controlled and planned
- It is happening slowly
- This is to our advantage
- This is to their advantage
- Let this happen peacefully
- Alternatives are worse for everyone

# What is More Important?

Faith based traditional world values discipline and wants more God.

Science based modern world values automation and wants more technology.

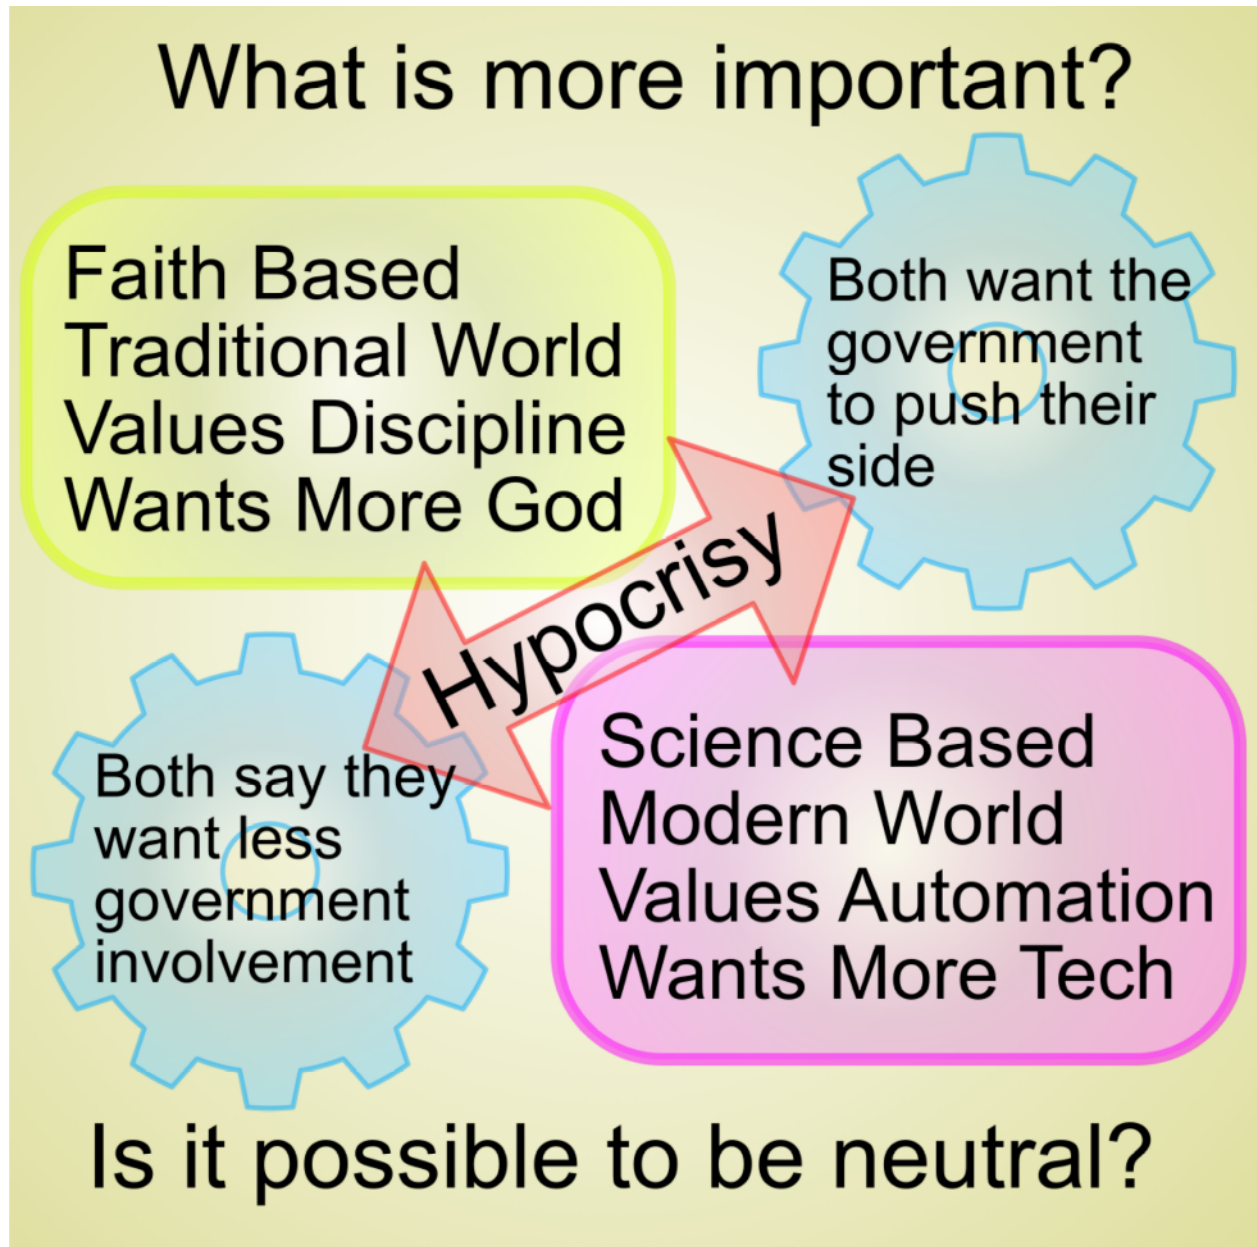

Both want the government to push their side.

But both say they want less government involvement.

Hypocrisy on both sides.

Is it possible to be neutral?

# Spiritual Knowledge

## Why we lack it

lack of patience  
easily distracted  
lack of resilience  
lack of imagination  
lack of self control  
unwillingness to commit  
seeking easy answers

## How we can gain it

practice our faith  
to get good at it  
practice is difficult and boring  
but it is worth the effort  
we are the problem  
but we can solve it  
by improving who we are

# Human vs. God

God's law is your conscience  
your conscience is God's law  
human judgment is not truth  
truth is not human judgment  
God never changes  
science always changes  
what was good and bad throughout history  
is still what is good and bad today  
the Bible is hard  
because life is hard

God's law is your conscience  
your conscience is God's law

human judgment is not truth  
truth is not human judgment

God never changes  
science always changes

what was good and bad

# Christian Worries and Bad Christians

## Christian Worries

Christians are not worried that you won't like them because they love God.

What worries us is that you will not love God because you do not like us.

## Bad Christians

Bad people know they need help

But normal people need God too

Because it is normal to need God

## Christian Worries

Christians are not worried that you **won't like them** because they love God.

What really worries us is that you will **not love God** because you do not like us.

## Bad Christians

**Bad** people know **they need** help

But normal people **need** God too  
Because it is normal to **need** God

# Cross Discipline Concept of Self

In circles within circles going from widest to narrowest. Colors in legend do not match colors exactly in circles as they bleed into each other.

Qi - transparent

Society - green

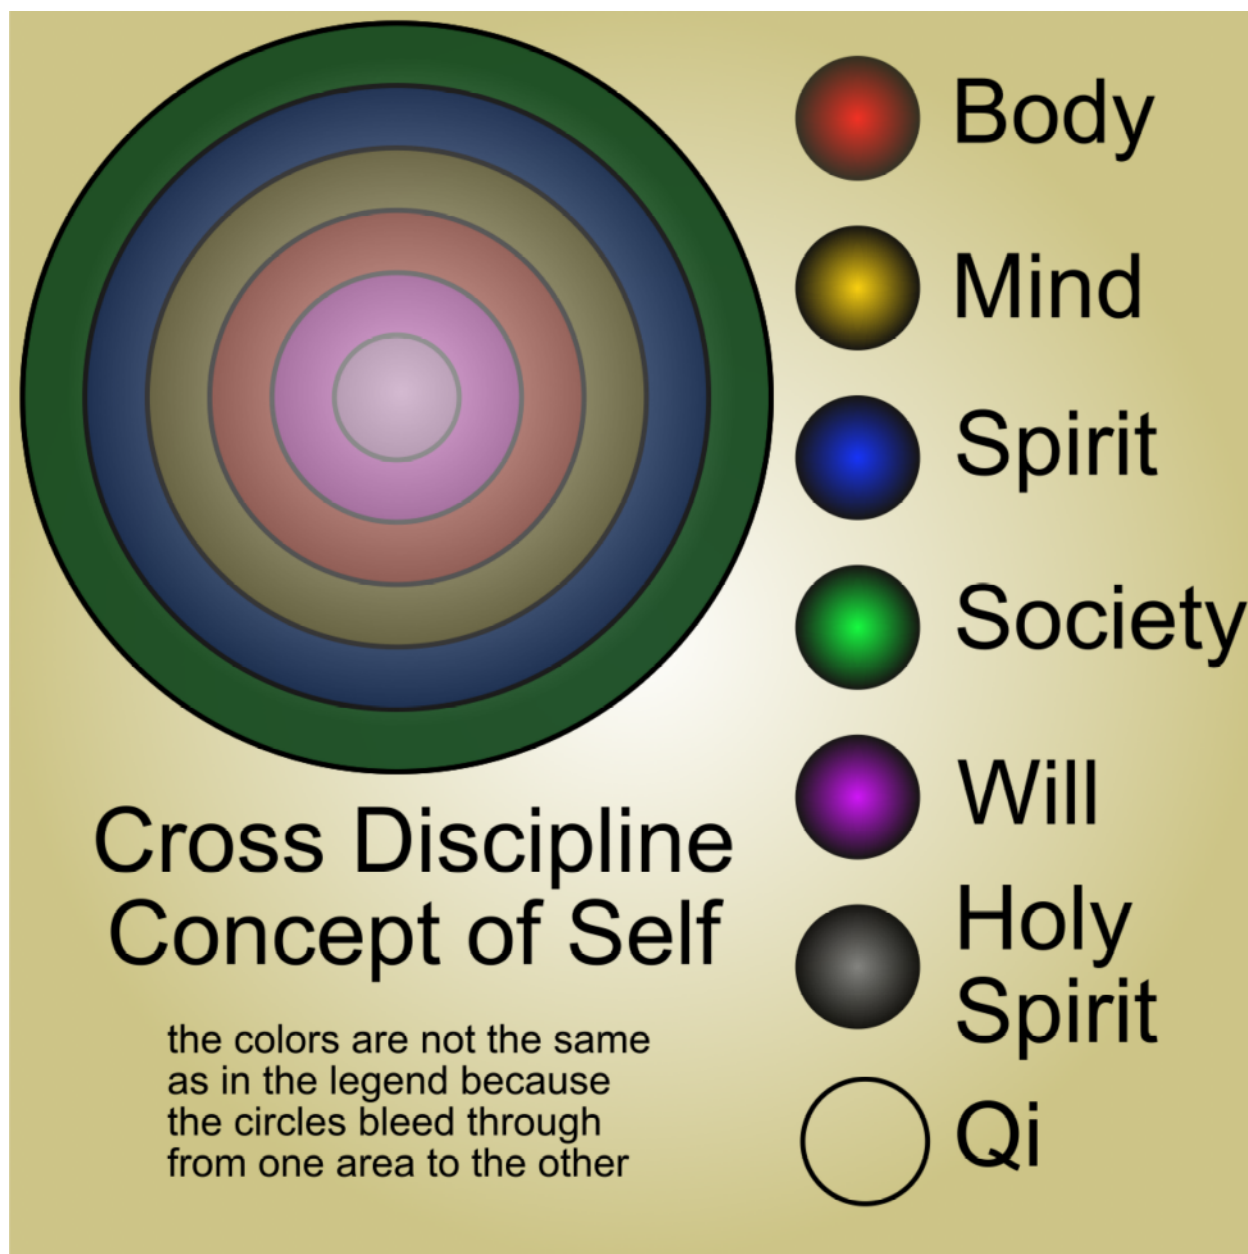

Spirit - blue

Mind - yellow

Body - red

Will - purple

Holy Spirit - grey

# Blood and Light

Spiritual Warfare and Growth

Blood and Light title on top right

Caption Spiritual Warfare and Growth on bottom

Blushing sun in top left

Brown tear drop person

With x cross over his red heart

With a candy cane missile hitting his heart

With a series of concentric circles radiating out

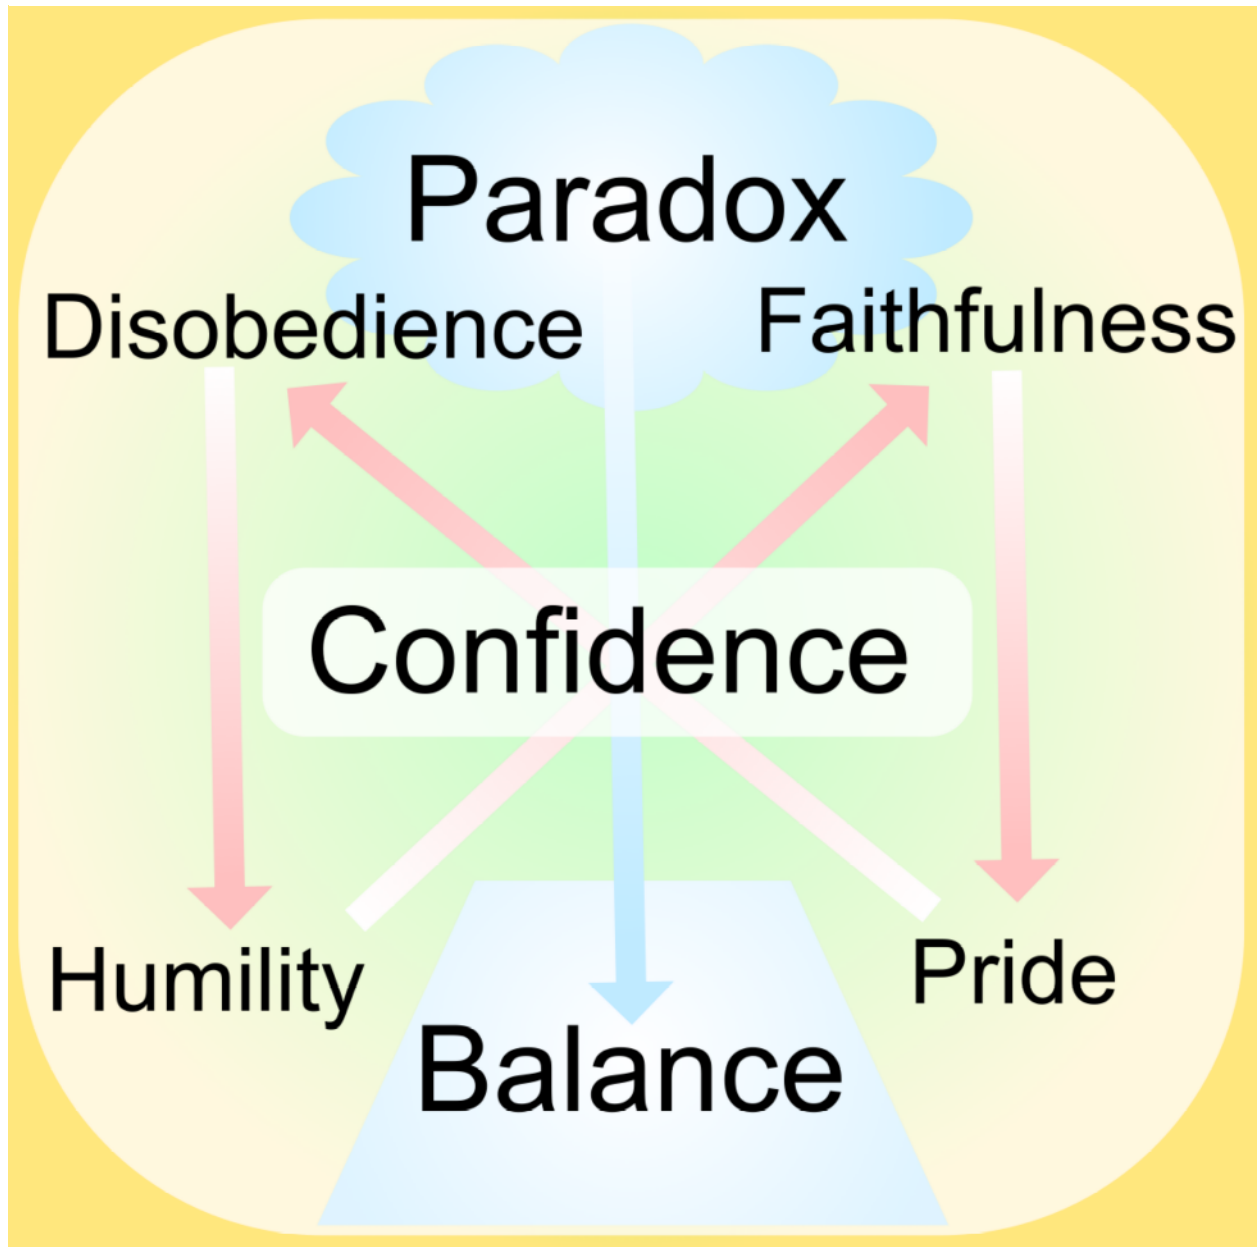

To symbolize explosion

With a giant leaf and blue sky in background

# Confidence

Paradox moves down to balance  
While disobedience moves down to humility  
As humility moves up and right to faithfulness  
And faithfulness down to pride  
Then up and left to disobedience

# No Rights, Just Grace

The Bible does not have inalienable rights  
God has a different kind of justice system

Nothing is truly free  
We are not guaranteed anything in life

We have all broken God's laws  
And deserve nothing because of this  
Until we ask for forgiveness  
And choose to follow God  
Then we are transformed into better people  
Over the rest of our lives  
If we continue to choose to follow God

God forgives us because He chooses to do so  
God can forgive us because He created us and He suffered for us

# Modern World is Easy

Peoples of the ancient world worshipped gods who were mean to them

Some followed God merely because He created them

Now we have 3 new reasons

We have the promise of eternal paradise

We have a community of believers

And we can have God live within us

This should encourage us not scare us

And it only takes 5 minutes to start

You will want to then spend your life in service and tell others

Because you will become a better person

# There is a Hell

It is the underworld in mythology  
It is compared to a place of fire and trash  
This may be the future earth

Sin causes environmental disasters  
The modern world is Babylon  
Judgement for the modern world  
Is happening through global warming

Weather will continue to get worse  
As we continue to disrespect God's creation  
Because of our greed  
Prophecy is being fulfilled now

God is an environmentalist  
And Christians should be too  
Sin is sin no matter how or why  
And everything costs something

# Bad News

Only God can satisfy  
Money and knowledge cannot  
Laws and technology cannot create stability alone  
Evil is within  
Change your mind

Simple cause and effect

# Good News

The Gospel is the solution

We can cultivate change by changing what we experience

Room for different approaches for different people with different problems

All need to read the Bible, go to church, and pray to change our attitudes

Try it God's way

Do not be a spiritual anarchist

# The Most Important Thing

If you could do anything  
To change the world or yourself  
And you only had time for one thing  
What would you do?

Christianity is about who Christ is  
And His supernatural involvement in our lives  
And our ultimate choice to follow Him

Christ offers a solution to suffering  
He forgives our evil (or sins)

He gives joy and peace by living within us  
He offers a community of believers  
He also offers eternity in paradise
